

IDEAS – FACILITY MANAGEMENT

IDeaS has invented critical decision solutions that assist global organisations such as leading hotels, airlines, car rentals, car parking organisations, manufacturing and transportation management companies in understanding, anticipating and reacting to different areas of consumer behaviour.

By assisting companies in understanding the behaviour of a particular consumer market, they are unlocking the key to optimising company-wide revenue management and profits.

By providing revenue management forecasting, optimisation and pricing solutions, coupled with IDeaS on-demand software, IDeaS can help companies to make an immediate impact on revenue and sustain ongoing profitability.

IDeaS aims to work hand-in-hand with clients to identify strategically important, complex business problems and then develop unique solutions that turn these problems into opportunities.

The company aims to develop revenue management and optimisation decision systems, which help at all levels of their clients' organisations.
